

Godspeed to Our Partner in Global Mission

By Aleta Chossek

Tanya van Braekel, a Belgian volunteer nurse who served as the Nkoaranga Hospital administrator in Tanzania the last four years, has combined European and American partner efforts for a miraculous transformation from hopeless in 2014 to thriving in 2019! Tanya is pictured (right) with the map showing the web of global support that is in place for the hospital in Tanzania. Please say a pray of thanksgiving that miracles do happen and for Nkoaranga Hospital's promising future as we walk together in accompaniment

Would you like to send a gift of appreciation for the work Tanya has done? The Medical Subcommittee would like to send a gift in her honor to rebuild the maternity/ob building at the hospital.

As Tanya ends her term of service, the Meru Committee would like to also honor the work she has done by retiring the \$4300 loan that the Greater Milwaukee Synod has extended to the hospital for improvements to their Electricity Project.

If you want to contribute to a gift for Tanya or to pay the balance for the electrification project, send your check to the Greater Milwaukee Synod/Nkoaranga Hospital Fund at 1212 S. Layton Blvd., Milwaukee WI 53215.
